## Testimonials and Feedback

“If you need someone to inspire, educate and motivate your staff about sustainability, who in turn can then do the same for pupils and your school community then Chris Southwood will do that for you. Chris has a wealth of knowledge and expertise within this area. She also understands that initiative overload can often be the reason why schools can find either starting or maintaining the sustainability agenda a challenge.”

“Chris has an engaging and participative approach that can help schools to find ways of promoting sustainability through their individual curriculum design and circumstances.”

“Setting off on your school’s sustainability journey can sometimes seem like a daunting prospect and we wanted to help schools in our district un-package their own sustainability jigsaw. Chris Southwood’s two day training programme was excellent as it set out clear steps for schools to follow and provided practical tools to instil confidence in participants that they don’t have to do it all on their own.”
